

Main Types of Aircraft Worksheet

All Aircraft are categorised in various groups – the two most important being Powered and non-powered. In each of these there are a number of main types as shown in the picture below.

(This activity worksheet meets the Badge Requirement 3e – the Cub Scout should be shown this page for a reasonable time and then the Leader should then be able to ask some relevant questions to ascertain if the Cub Scout understands the requirements).

Non-Powered Flight

Hang Glider

Glider

Parachute

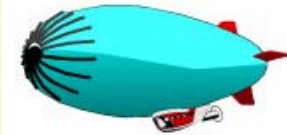

Balloon

Powered Flight

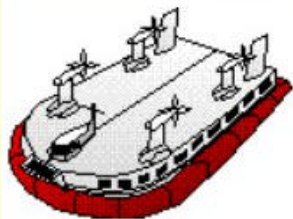

Airships
